## **PROFESSIONAL SUMMARY**

Junior Software Developer with a background in accounting and professional experience in customer support and operations. Hands-on experience building web applications using React and JavaScript, with a focus on clean UI, API integration, and problem-solving.

Experience working in structured environments, supporting users, documenting issues, and collaborating with teams to resolve problems. Strong analytical mindset, attention to detail, and ability to learn new technologies quickly.

Currently seeking an entry-level software engineering or application support role where I can contribute to real-world projects, continue learning, and grow within a collaborative, engineering-driven environment.

## **TECHNICAL SKILLS**

- JavaScript (ES6+), React, HTML, CSS
- REST APIs, Responsive Design
- Git, GitHub, Vite
- Basic Testing (Vitest, Testing Library – learning)

## **ANALYTICAL & PROFESSIONAL SKILLS**

- Problem-solving and analytical thinking
- Incident documentation and user support
- Business process understanding
- Communication and teamwork

## **PROJECTS (Hands-on Experience)**

### **Star Wars Infinite Scroll App**

- Developed a scalable React application integrating multiple API endpoints to display dynamic character data.
- Implemented infinite scroll using Intersection Observer to improve user experience and performance.
- Designed UI states including loading, empty state, and data rendering to ensure a smooth user experience.
- Applied component-based architecture and reusable logic through custom hooks.

GitHub: <https://github.com/DelPieroj10/Star-Wars-Infinite-Scroll-App>

### **React Product Explorer**

- React application that consumes an external product API, allowing us to display products and filter them by name, category, and price.

GitHub: <https://github.com/DelPieroj10/React-Product-Explorer>

### **Users App with Intersection Observer**

- Application developed in React.js that consumes a public API to display a list of users with Infinite Scroll, Skeleton Loader, and Empty State.
- Client-side pagination is implemented with a reusable hook and a clean, reusable component architecture.

## **PROFESSIONAL EXPERIENCE**

*React Developer – Personal Projects | 2025 – Present*

- Built and maintained React applications consuming REST APIs.
- Implemented reusable components and custom hooks for clean architecture.
- Managed asynchronous data and UI states (loading, error, empty).
- Focused on performance and user experience in real-world scenarios.

*Customer Support & Application Support – Bancolombia Campaign (Konecta) |*

*Oct 2024 – Dec 2025*

- Provided multi-channel customer support and issue resolution.
- Focused on user experience and satisfaction metrics.
- Developed strong communication skills and problem-solving abilities applicable to user-centered software development.
- Worked with digital platforms, documented incidents, and collaborated with technical teams to resolve issues efficiently.

*Store Manager – Movies Shop / Sep 2023 – Jun 2024*

- Led store operations and team performance.
- Reduced losses by 40% and optimized internal processes by 90%.

*Assistant Store Manager – XC2Blue / Dec 2012 – Apr 2016*

- Led a team of 10+ members and increased sales by 110%.

## **EDUCATION**

Technical Degree in Accounting and Finance | 2008

Accounting Studies (Incomplete) | 2016

## **LANGUAGES**

Spanish: Native

English: Intermediate
